

Welcome to Hogies Australia

Hogies Australia's specialist opticians to the surgical, dental and medical professions

---

### High Performance Protective Eyewear

Hogies MacroSafety Glasses are designed to meet the requirements of all Health Care Professionals.

### LED Illumination

The Yna-2 provides 28,000 lux at 30 cm for 9 hours continuous use. For intermittent use this may be extended.

### Active Eyewear

The Hogies Sportsview frame system is a uniquely designed frame that allows for full interchange of tinted shields and a rimless prescription lens holder.

### Galilean Operating Loupes

Our award winning Mediview Frame combines fashionable and ergonomic elements with our patented magnetic link system.

### Prismatic Operating Loupes

3.5X and 4.5X magnification presented in the flip-up mode is the dentist's popular choice for endodontic procedures.

### MiniScope Galilean Loupes

For the first time we offer together the Hogies MiniScope 2.5X & 3.0x Galilean Loupes and the YN.a Mini LED.

Featured product

## Hogies Prescription Insert

Rs. 3,700.00

Hogies Australia rimless 'click-in' prescription lens fitting is a light weight rimless lens holder that can accommodate most optical corrections. Easily fitted into the Eyeguard, Asian Bridge or Macro frames. The Micro (small) model is not compatible.

**The cost includes the rimless unit and a protective case. The Hogies safety eyewear and your prescription lenses are an additional cost.**

Your options are simply to add the rimless insert to your existing Hogies safety glasses or you may choose to add this 'click-in' to the next Hogies Eyeguard or Hogies Macro frame you purchase.

Hogies Australia also offers a lens fitting service. Prices for lenses vary depending upon the prescription and lens design required. Please send a copy of your prescription for a free quotation ([sales@hogies.com](mailto:sales@hogies.com)).

You may of course choose to take the rimless attachment to your preferred eyecare practitioner to have your prescription filled.
